It's all new.

The Future of Residential Dining is Here.

**Serving a new generation
impatient for variety, choice, and access.**

The business of residential dining is all new. New expectations, new technologies, and new opportunities to deliver culinary experiences that exceed expectations.

Meet Restaura, created by industry leaders Richard Schenkel and Joe Cuticelli, who are driven to reinvent the status quo.

We've imagined new ways to embed technology into every facet of the dining experience to optimize our clients' success, resident satisfaction, and operational efficiencies.

The future is leveraging real-time data and sentiment analysis to drive performance and customize every meal. It's an employee ownership model that creates a culture where every team member is empowered and inspired to exceed expectations. It's scratch cooking, responsive menu planning, and personalized nutrition.

Today's seniors are redefining aging. We're doing the same for residential dining. Because food is everything. Sustenance. Nutrition. Vitality. Community.

The time for change is now.
